Project Manager, , Union Station Rail Corridor (CONTRACT POSITION)

Canada

JOB DESCRIPTION

Metrolinx is connecting communities across the Greater Golden Horseshoe. Metrolinx operates GO Transit and UP Express, as well as the PRESTO fare payment system. We are also building new and improved rapid transit, including GO Expansion, Light Rail Transit routes, and major expansions to Toronto's subway system, to get people where they need to go, better, faster and easier. Metrolinx is an agency of the Government of Ontario.

At Metrolinx, equity, diversity and inclusion are essential to living our values of serving with passion, thinking forward and playing as a team.

This role is an in-office position based at our 130 Adelaide Street location. Our team is highly collaborative, and much of our work benefits from in-person co-creation, relationship-building, and hands-on partnership with leaders across the organization.

CPG's workforce is made up of driven and dedicated professionals who care deeply about working together to deliver infrastructure and make a positive impact in our communities. Join us as we build a knowledgeable and collaborative team that courageously changes how transit projects will be delivered.

The GO Expansion-USRC project has the objective of building an enhanced commuter rail network to meet the corporate mandate and business objectives while adhering to Metrolinx's highest standards for safety, efficiency, and legal/regulatory/policy compliance, while delivering excellent customer experience. The USRC Project Manager will be responsible for the infrastructure required to support the capital build of the GO Expansion program within the USRC Corridor. Reporting to the Manager, you will support and oversee consultants, developers and contractors work and will actively manage all activities to ensure achievement of objectives according to defined timelines, budget, and approved project deliverables.

This is a Temporary Assignment position up to 7 months.

What will I be doing?

- Ensures the project is progressing by completing, assigning, and monitoring day-to-day tasks and providing updates to management.
- Coordinates with external stakeholders (e.g. municipalities, transit authorities, government agencies, and property owners) on resolution of design issues, timelines, deliverables, changes and other issues impacting project progress, quality, cost, and safety.
- Identifies, monitors, mitigates, and escalates issues that can potentially put the success of the project at risk.
- Coordinates the preparation and review of estimates for studies, design, construction, and contingency costs.
- Performs full project life-cycle project management role and responsibilities within a collaborative minded project team on a complex, dynamic and high-risk project. Ensures that only approved work scope is delivered by the project and that the project lifecycle is completed on-time and within budget.
- Provides administrative, design, editing, technical, estimating, and priority direction to staff and personnel assigned to individual projects, through all project stages.
- Works with a multidisciplinary team comprised of employees, delivery partner, consultants and contractors to deliver high-quality product and service, and oversees

the day-to-day delivery of project team members involved in the coordination and administration of project elements.
- Coordinates several complex tasks under pressure to meet schedule and budget commitments.

What Skills and Qualifications Do I Need?

- Completion of a degree in Engineering or a related discipline - or a combination of education, training and experience deemed equivalent.
- Demonstrated experience in project management, preferably within the public sector
- Demonstrated experience managing projects and stakeholders, preferably involving planning, design, construction, and commissioning of transit stations, facilities, heavy Railway infrastructure including electric traction, bridges, structures, and related works.
- Project Management Professional (PMP) certification, and/or, or P.Eng. designation or partial completion is an asset
- Project management experience to manage assigned multi-disciplinary projects of high value and complexity and supervise staff engaged in all stages of project management from start to close-out
- Project management experience to manage assigned projects and supervise staff engaged in all stages of project management from start to close-out
- Knowledge of construction standards and procedures applicable to an operating Railway environment. Organizational, interpersonal, and oral/written/presentation communication skills to coordinate complex multi-disciplinary projects under pressure to meet schedule and budget commitments
- Knowledge of Progressive Design Build (PDB) or other collaborative project delivery models is an asset
- Project specific requirement for visits to construction sites (CPG) during working hours and occasional visits during evenings, weekends and/or holidays.
- A valid Ontario Class “G” driver’s licence for regular visits to construction sites is an asset

Don’t Meet Every Requirement?

If you’re excited about working with Metrolinx but your past experience doesn’t quite align with every qualification of this
