You believe in quality work. You see the big picture of a project—from start to finish. You know what is imperative and what can wait. You're a problem solver who won't let a project hiccup slow you down. You're proactive, you pitch-in where needed. With intuition and strategic thinking, you prioritize competing demands as you lead your team to deliver on time.

Binnie is looking for a Project Manager to join our Transportation Major Projects Division, which provides Owner's Engineer services for the planning, design, procurement, and delivery of major infrastructure projects in British Columbia. This is a full-time position based out of our Burnaby Office, located near scenic Deer Lake.

Some of our ongoing and recent projects include the Fraser River Tunnel Project, Steveston interchange project, Patullo Bridge Replacement Project and Highway 91/17 Upgrade Project.

You will work with our experienced Senior Project Managers and our talented engineering team to ensure we meet our clients' needs. This is an excellent opportunity for advancement. You will utilize your excellent client networking and business development skills to secure new business opportunities while maintaining strong relationships with our existing clients.

Your Role

- Acting as the main point of contact on projects working with clients, stakeholders, consultants, contractors and support staff

- Managing major transportation engineering projects on behalf of the Owner's Engineer Team or Design Team.

- Providing directions to staff and subconsultants

- Engaging in active business development

- Leading proposals in coordination with our Proposal Team

- Developing project schedules and coordinating resources

- Monitoring budget and progress on projects

- Proactively supporting clients and anticipating project needs

- Overseeing the correct implementation of our quantity management system and application of design standards for engineering work.

What You Bring

- A minimum 4+ years of related technical experience in transportation engineering or project management in a civil engineering environment

- Registration as a P.Eng. preferred

- Demonstrated experience delivering presentations to internal and external stakeholders

- Valid Class 5 Driver’s License and personal vehicle

- Exceptional project management, design, and time management skills

- Positive attitude and dependable with the ability to work cooperatively and productively in a multidisciplinary team environment

- Demonstrated team management and delegation skills

- Proven conflict resolution capabilities

- Strong communication and time management skills and ability to work concurrently on several different projects

- Excellent attention to detail to consistently produce accurate, high-quality work

About Binnie

We are the people behind the infrastructure you use every day. We’re small enough to know each other’s names, and big enough to be where we’re needed. As an employee-owned firm and one of Canada’s Top Small & Medium Employers, we take pride in our work and are respected as one of the top engineering firms in British Columbia. We support some of the most important infrastructure in the province and beyond.

We’re looking for professionals who want to build careers and communities that last. We can’t do it without you.

The Perks

People come first. We support you with the education, mentoring, and growth opportunities you need to build an interesting career. As an employee-owned firm, we create a clear internal growth path that can keep up with even the most ambitious professionals. Whether it’s through our Employee Resources groups like Young Professionals and RISE; our mentoring programs, Binnie Banters speech club, Movember, or book club, everyone can get involved in their own way.
