Gera Mulira
Human Resources
Transportation Services, City of Toronto

Re: Project Manager, Transportation Services (Job ID 67513)

Dear Gera Mulira,

I would like to be considered for the Project Manager, Transportation Services position supporting the Manager, Contract Development, Delivery and Inspections, Area 2. I should say at the outset that this is an operations role and my background is in transportation planning, so I have tried to be clear below about both what I would bring and where I fall short.

Parts of the role are close to my current work: developing plans and recommending policies and practices, preparing reports for senior management, presenting programs, and providing technical support across divisional lines. In Transportation Planning I run assigned projects from scoping through to recommendations, holding the schedule and quality myself, coordinate with divisions, consultants and outside agencies, and write the briefing notes, memos and presentations that carry issues to senior staff.

The posting also places weight on systems that monitor productivity and performance. I built the Transportation Data Dashboard, which combined several years of survey data into one validated source the division reports from. At Metrolinx I set up a command line workflow that pre-simulated slow orders in batches, cutting turnaround on scenario requests from days to hours, and built the Crew Variance Tool, a Python application that read large JSON operations files and summarised speed profiles and run-time variance across subdivisions.

The gaps are substantial. I have no experience in winter operations or summer maintenance contracts, and I have not supervised staff, handled labour relations or grievances under a collective agreement, or prepared operating and capital budgets. I have not used EWMS, SAP or GPS/AVL systems. I do not currently hold a Class G licence, which the posting requires along with a City Operator's Licence, so I would need to resolve that. I am applying because the planning and reporting side of the role is familiar, and because the Qualified List covers permanent and temporary positions.

Thank you for considering my application.

Sincerely,

Abdullah Al Zahid
