Talent Acquisition

Capital Projects Group (GO & UP) — Lakeshore West Existing Stations Rehabilitation
Metrolinx, 130 Adelaide Street West

Re: Project Manager (Job ID 117202)

Dear Hiring Manager,

I would like to be considered for the Project Manager position with the Lakeshore West Existing Stations Rehabilitation team. I worked on the GO rail network at Metrolinx in 2023 and am now an Assistant Planner with the City of Toronto, where much of my work is reviewing technical submissions and coordinating the people who have a stake in them.

The part of the posting I recognise most is facilitating the review of consultant studies, reports, design proposals and specifications for compliance with standards, and liaising with municipal authorities, agencies and consultants on timelines and issues. At the City I review engineering submissions, consultant studies and drawings against City standards and recommend conditions where something is missing, and I run assigned projects from scoping to recommendations while holding the schedule and quality myself. I coordinate with divisions, consultants and outside agencies whose priorities conflict, and write the memos and briefing notes that carry issues to management.

Station rehabilitation happens around a live railway, and that is the part of my Metrolinx experience most relevant here. I assessed what temporary and permanent slow orders, the kind of restriction construction work imposes, would do to GO service, and set up a command line workflow that pre-simulated them in batches, cutting turnaround on scenario requests from days to hours. I also built the Crew Variance Tool, a Python application that summarised speed profiles and run-time variance across subdivisions from large operations files.

I should be straightforward about the gaps. I have not managed construction projects through design, tender, construction and commissioning, supervised staff, managed a budget, or administered procurement, change orders and consultant agreements. My knowledge of contract law, the Construction Act and the Occupational Health and Safety Act is general, and I do not hold a PMP or P.Eng. I am applying because the review and coordination parts of the role are familiar, the railway context is one I know, and the posting invites people who do not meet every requirement.

Thank you for taking the time to consider my application.

Sincerely,

Abdullah Al Zahid
