

Project Manager II – Transportation Planning (Posting ID 5507)

Regional Municipality of Halton, Public Works, Infrastructure & Environmental Services

Halton Regional Centre, 1151 Bronte Road, Oakville, ON. Hybrid, minimum 3 onsite days/week.

Permanent, 35 hrs/week, OCT employee group; two vacancies. Salary \$97,067 – \$121,326. Closes October 14, 2026, 11:59 p.m.

Apply: <https://careers.halton.ca/job/10-Halton-Regional-Centre-Project-Manager-II-Transportation-Planning-10/606532317/>

(Text recorded from the ITE Canada job board listing; the Halton portal itself was not read.)

Duties

Lead region-wide multi-modal transportation studies, including corridor planning and feasibility studies. Conduct or review network, area and corridor studies. Provide technical input on Regional projects and those led by local municipalities, Metrolinx and the Ministry of Transportation. Help develop transportation policies and procedures; prepare staff reports for Regional Council. Participate on technical studies and committees.

Qualifications

Post-secondary education in engineering and/or environmental studies or sciences, plus P.Eng. or C.E.T. certification in Ontario. At least seven years planning municipal multi-modal transportation infrastructure. Understanding of the Municipal Class EA process and corridor planning. Experience reviewing network and intersection-level impacts, applying TAC and OTM standards. Strong project management, analytical and communication skills. Assets: travel demand forecasting, intersection analysis, preliminary design, Synchro, EMME/GTA v4, ArcGIS; PMP preferred. Equivalent combinations of education and experience will be considered.

Working conditions In-person meetings and site visits; own transportation and driver's licence by first day.
