Metrolinx, 130 Adelaide Street West, Toronto, ON

Re: Manager, Project Delivery (Job ID 117600)

Dear Hiring Manager,

I would like to apply for the Manager, Project Delivery position with the Union+ team in the Capital Projects Group. I should say at the outset that this is a design and construction delivery role at a level above my experience, and I have tried to be clear below about both what I would bring and where I fall short.

From my time in Service Design at Metrolinx I know the GO network that runs through the Union Station Rail Corridor from the operating side. I ran OpenTrack simulations of GO rail services and assessed the service effect of temporary and permanent slow orders, the kind of restriction construction on an operating railway imposes. I also set up a command line workflow that pre-simulated slow orders in batches, cutting turnaround on scenario requests from days to hours, and built the Crew Variance Tool, a Python application that read large JSON operations files and summarised speed profiles and run-time variance across subdivisions.

Since January 2024 I have been an Assistant Planner in Transportation Planning at the City of Toronto. I run assigned projects from scoping through to recommendations, holding the schedule and quality myself, review the studies consultants and applicants submit against City standards, and coordinate with divisions, consultants and outside agencies whose priorities conflict. At Mott MacDonald I ran Synchro traffic simulations of Ontario Line construction staging and road closures.

The gaps are substantial. The posting asks for experience managing construction projects from start to completion, working directly with contractors, and leading a team of technical project professionals. I have not managed design or construction, overseen contractors or Alliance partners, managed budgets or risk, or supervised staff, and I have not worked on access planning or track protection in a live corridor. If the Union+ team has a project coordinator or project manager role closer to my level, I would welcome being considered for it.

Thank you for considering my application.

Sincerely,

Abdullah Al Zahid
