Summary of the posting text as read (not a verbatim copy):

Location: Greater Toronto Area (97 Front Street office). Full-time: 1 permanent position + 1 contract/temporary up to 18 months.

Salary: \$93,798 - \$127,484 per year. Posted: 1 day ago. Seniority: Mid-Senior level.

Responsibilities:

- Serve as subject matter expert in evaluating the trade-offs, risks and benefits of capital and/or operating investments in rapid transit.
- Lead development of investment-grade analytical models, forecasts and business cases.
- Evaluate project performance using KPIs including ridership forecasts and cost-benefit analysis.
- Apply computer-based tools for evidence-based assessment and analysis of transit projects.
- Develop clear, concise, visually compelling deliverables for senior management.

Required: University degree in Engineering, Economics, Business Analytics, MBA or equivalent advanced technical certification.

Practical experience in the transportation sector; technical analysis and benchmarking study experience; strong communication.

Assets: demand modelling software (EMME, TransCAD, VISUM); GIS; statistical software (STATA, SAS, R); graphic design tools (Adobe, PowerPoint, D3, Tableau); transportation economics.
